

COMPETENCE

AT YOUR FINGERTIPS

Reinstein Swiss GmbH
Company Profile

EXPERTISE WHERE AND WHEN YOU NEED IT

As an engineering company, REINSTEIN is your partner for domestic and international projects – with main focus on power plant technologies. Wherever you require specialists with expertise and experience we can provide you with the highest level of support, ensuring that our experts are available when and where you need them for your project.

COMPETENCE AT YOUR FINGERTIPS

Our engineers, construction and project managers are experienced specialists in their fields. They offer an exceptionally high level of expertise meeting your specific requirements.

The REINSTEIN services go far beyond the supply of experts, however. Our management team consists of engineers with long-term experience in international power plant projects and is well acquainted with their challenges. Therefore, we fully understand your requirements and can provide comprehensive consultancy and professional assistance throughout the course of your project.

No matter whether you require an independent consultant, need support in project development, personnel training, or issue of documentation – we can provide expertise where and when you need it.

CUSTOMISED SUPPORT – TAILORED TO THE SPECIFIC NEEDS OF YOUR PROJECT

With significant experience in power plant construction, REINSTEIN is well aware of the pitfalls that can occur in the classical trilateral relationship between client, contractor and suppliers. Our core team and our network of experts can provide comprehensive assistance to all parties of the project.

In addition to the high level of dedication and professionalism you can expect from REINSTEIN, our main principle is to work side-by-side with our clients in a relationship based on mutual respect and trust.

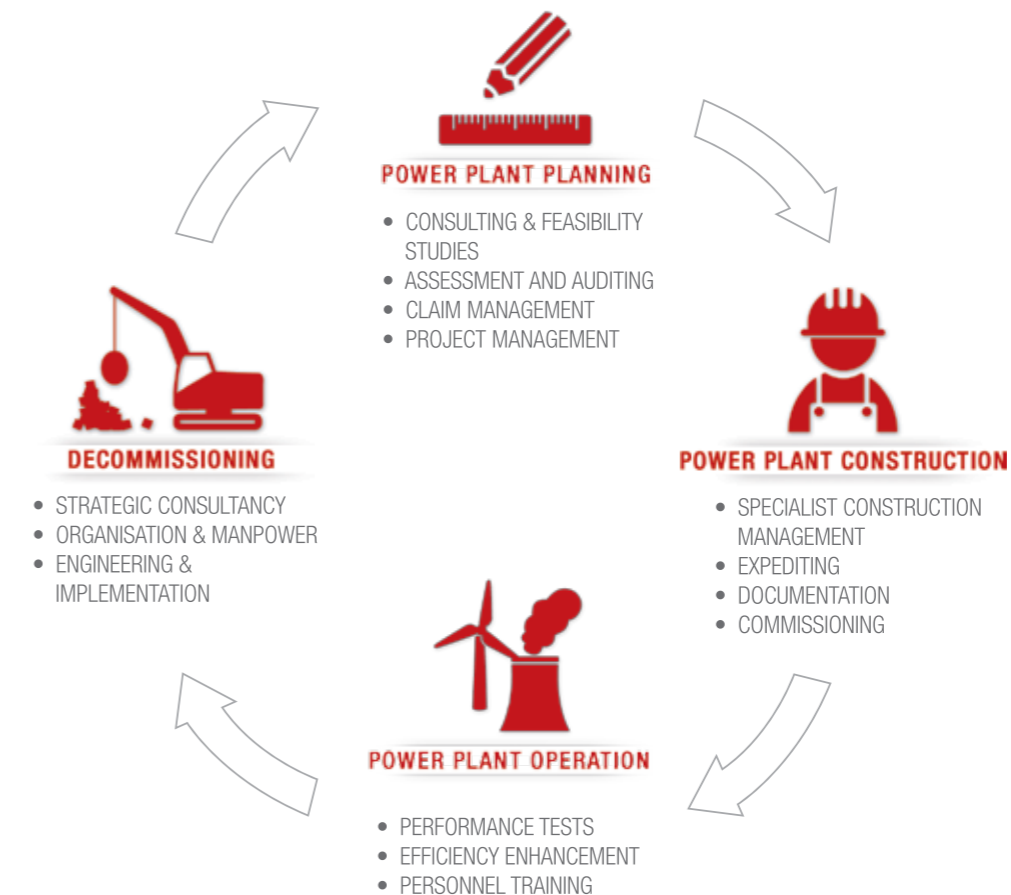

The appropriate expert for your project

Expertise through first-hand experience

OUR SERVICES AND CAPABILITIES

Reinstein Swiss GmbH is a global power generation specialist company. From basic planning up to decommissioning, our services cover the entire power plant lifecycle. We support you through all stages of the project, working independently and focusing on results.

Support throughout all phases of your project

REINSTEIN CAN PROVIDE YOU THE APPROPRIATE EXPERT

Our specialists have accumulated decades of experience in various kinds of large-scale projects internationally – with main focus on combined-cycle and coal technology. Likewise, they are able to perform challenging nuclear power assignments.

We build strong partnerships with our clients and our personnel to provide dedicated support throughout the entire project: from the initial inquiry to the final completion of the project. **How can we support your project?**
